

The Washington Hotel

Pennsylvania
Avenue

15th and F
Streets N. W.

Spanish Gardens

Adjoining the lounge you will find the Spanish Gardens and Dining Room. It is finished in beautiful car stone walls, with tile floor. Occupying the center of the gardens will be a wonderful fountain that will add much to its appearance. Looking up, one does not find a ceiling, but a glass roof made of different colored glass, which, blended together, produces a wonderful effect. All over the gardens there are hung quaint Spanish lanterns. Direct and indirect lighting fixtures afford many attractive ways of lighting the gardens. Tea Dances will be held in the lounge daily from 5 to 6 P. M.

The National Capital's Newest and Finest Hostelry

NOW OPEN

Under the management of Mr. R. S. Downs, for many years manager of the Stafford Hotel, Baltimore, and recently manager of the Shoreham, of this city.

Never before in the history of the National Capital has a hotel opened that has so many new, distinctive features as the Washington Hotel.

It is a metropolitan hotel in every sense of the word.

As one enters the hotel many unique features will greet the eye. There are 400 rooms, each with a bath and shower, and a telephone, and running ice water in every bedroom and bathroom. Every room an outside room—plenty of fresh air. On the mezzanine floor are four committee rooms, also four private dining rooms. In the basement is located the grill and coffee room, finished in beautiful car stone walls and mosaic floors. When all its dining rooms are in use 1,000 people can be fed at one time. We have specially engaged Maxim, the famous chef of the Knickerbocker Hotel of New York City and formerly with the famous Ritz Hotel of London. Joe Langer, formerly of the Willard and Shoreham, will have charge of the dining room. The best service possible will be rendered to every patron.

You are cordially invited to come in and look over the most modern hotel in Washington.

R. S. DOWNS, Manager

Assembly Hall

One of the largest assembly halls in the country. This hall runs the entire length of the building on F street and will seat over 2,000 people. The hall will furnish a desirable place to hold banquets, balls, carnivals and conventions. All modern appliances have been installed for the convenience of patrons.

Main Dining Room

To realize how good the dining room really is you must view it with your own eyes. Its beautiful mosaic floor, paneled wainscoting, invisible lighting arrangement and other charms combine to make it a delightful place in which to dine. In the summer, by the means of a filtering plant, the air is cooled, entering on one side of the room, passing through it and out on the other side.

Roof Garden

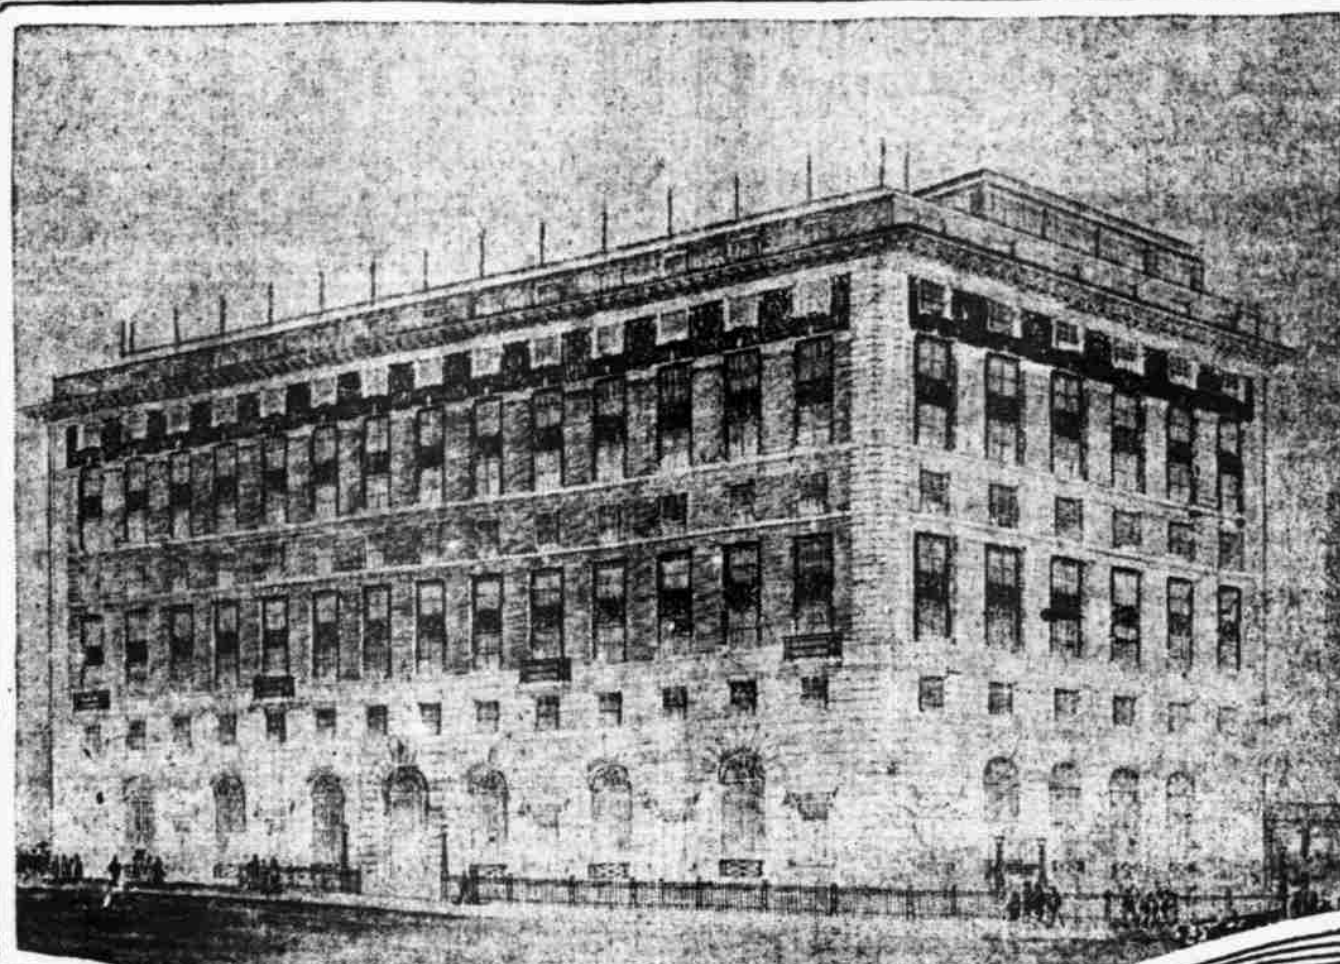

On the roof garden you will find an ice-skating rink covering 4,000 square feet of space, which may be used summer and winter. Delightful music will be rendered in the musicians' gallery over the rink. There is a promenade over twenty-five feet wide which affords a most excellent view of Washington. A dining room with kitchen attached is also located on the roof.
